

Pro-Data - more than cloud! **How do we help customers?**

**Cloud infrastructure in Kazakhstan and Uzbekistan
that meets your needs**

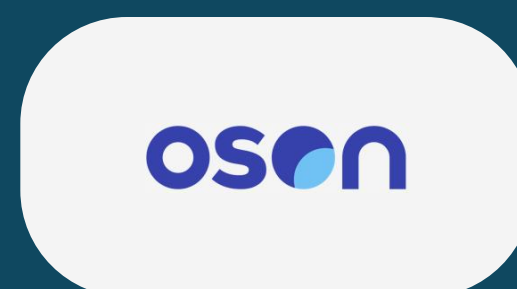

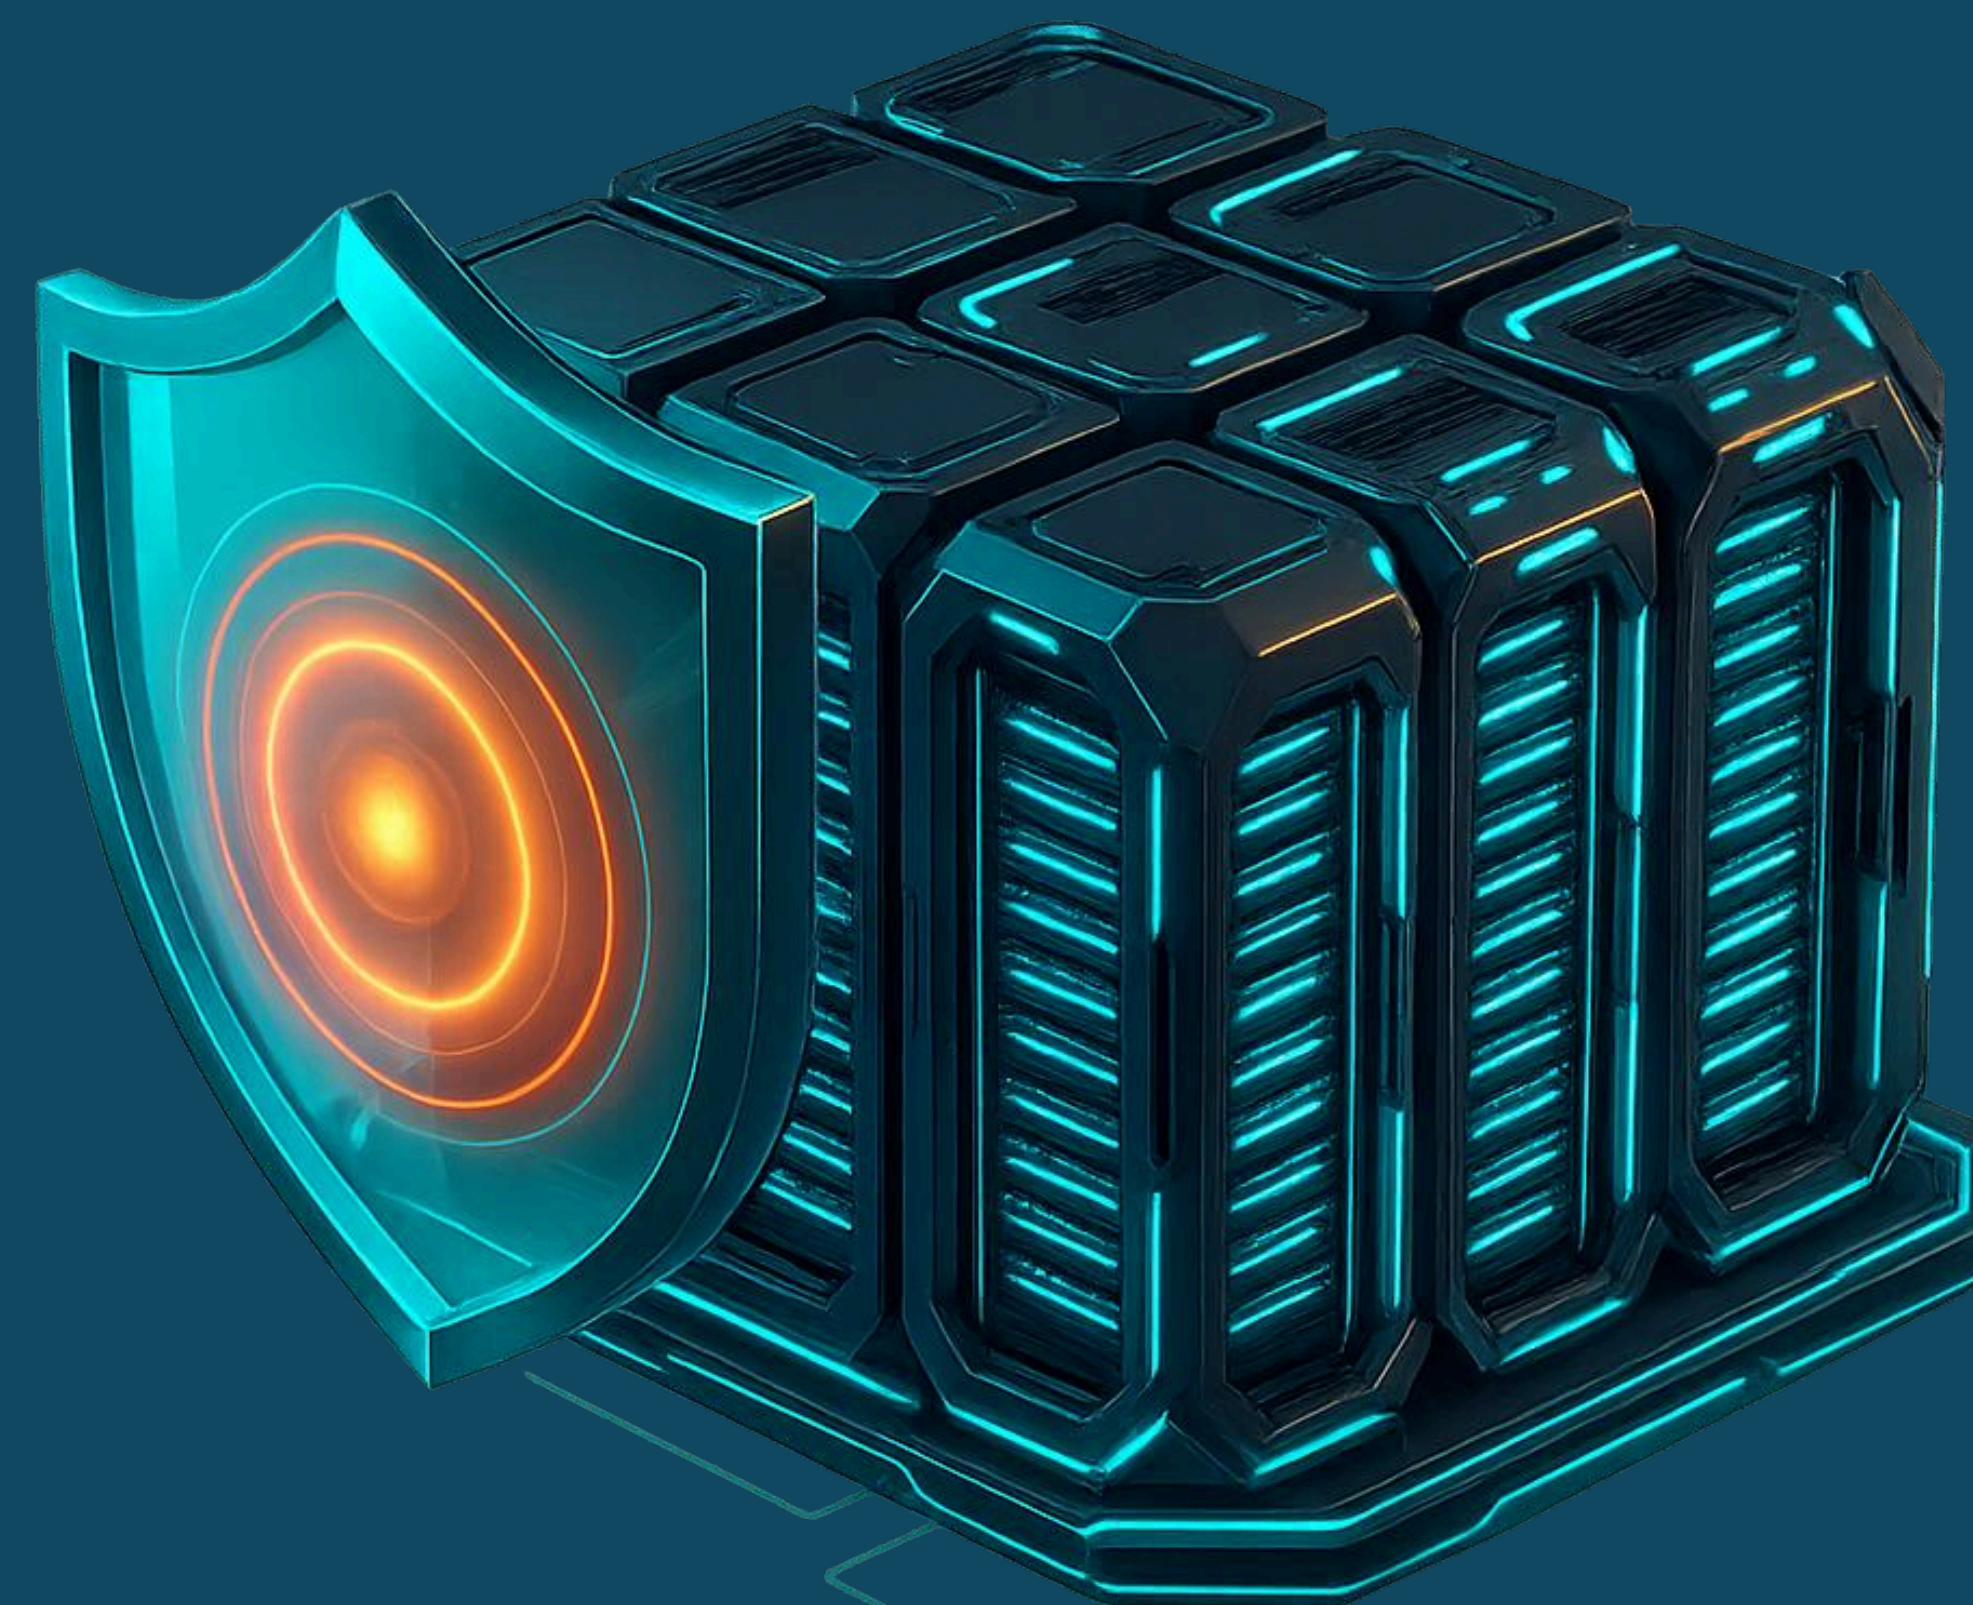

Increasing infrastructure reliability for uninterrupted business operations

- ▶ Disaster Recovery, as a Service
- ▶ SLA for uptime of up to 99.99% when using infrastructure in two availability zones
- ▶ Fault tolerant clusters with all equipment in reserve

Ensuring the highest security for the safety of client data

- ▶ Compliance with PCI DSS and ISO 27001 standards
- ▶ Compliance with the requirements of Law No. 547 (Uzbekistan) and Law No. 94-V (Kazakhstan) on personal data
- ▶ Physical security: data center security, biometrics and access control systems, gas fire extinguishing
- ▶ Software and hardware:
 - ▶ NGFW, WAF, IDS/IPS, Anti-DDoS, Backup as a Service

Cost optimization for IT-infrastructure

- ▶ Relieving business from non-core costs for:
 - construction of data centers;
 - organization of uninterruptible power supply, backup communication channels and air conditioning;
 - purchase of server equipment, software and licenses;
 - infrastructure maintenance;
- ▶ Conversion of difficult CAPEX to simple OPEX
Monthly subscription instead of large one-time payment
- ▶ Payment for actually used resources
without overpayments, pay as you go

Cost Categories for Infrastructure Deployment

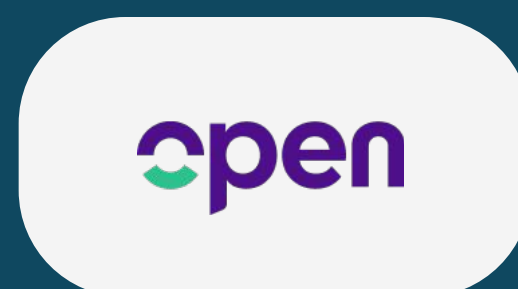

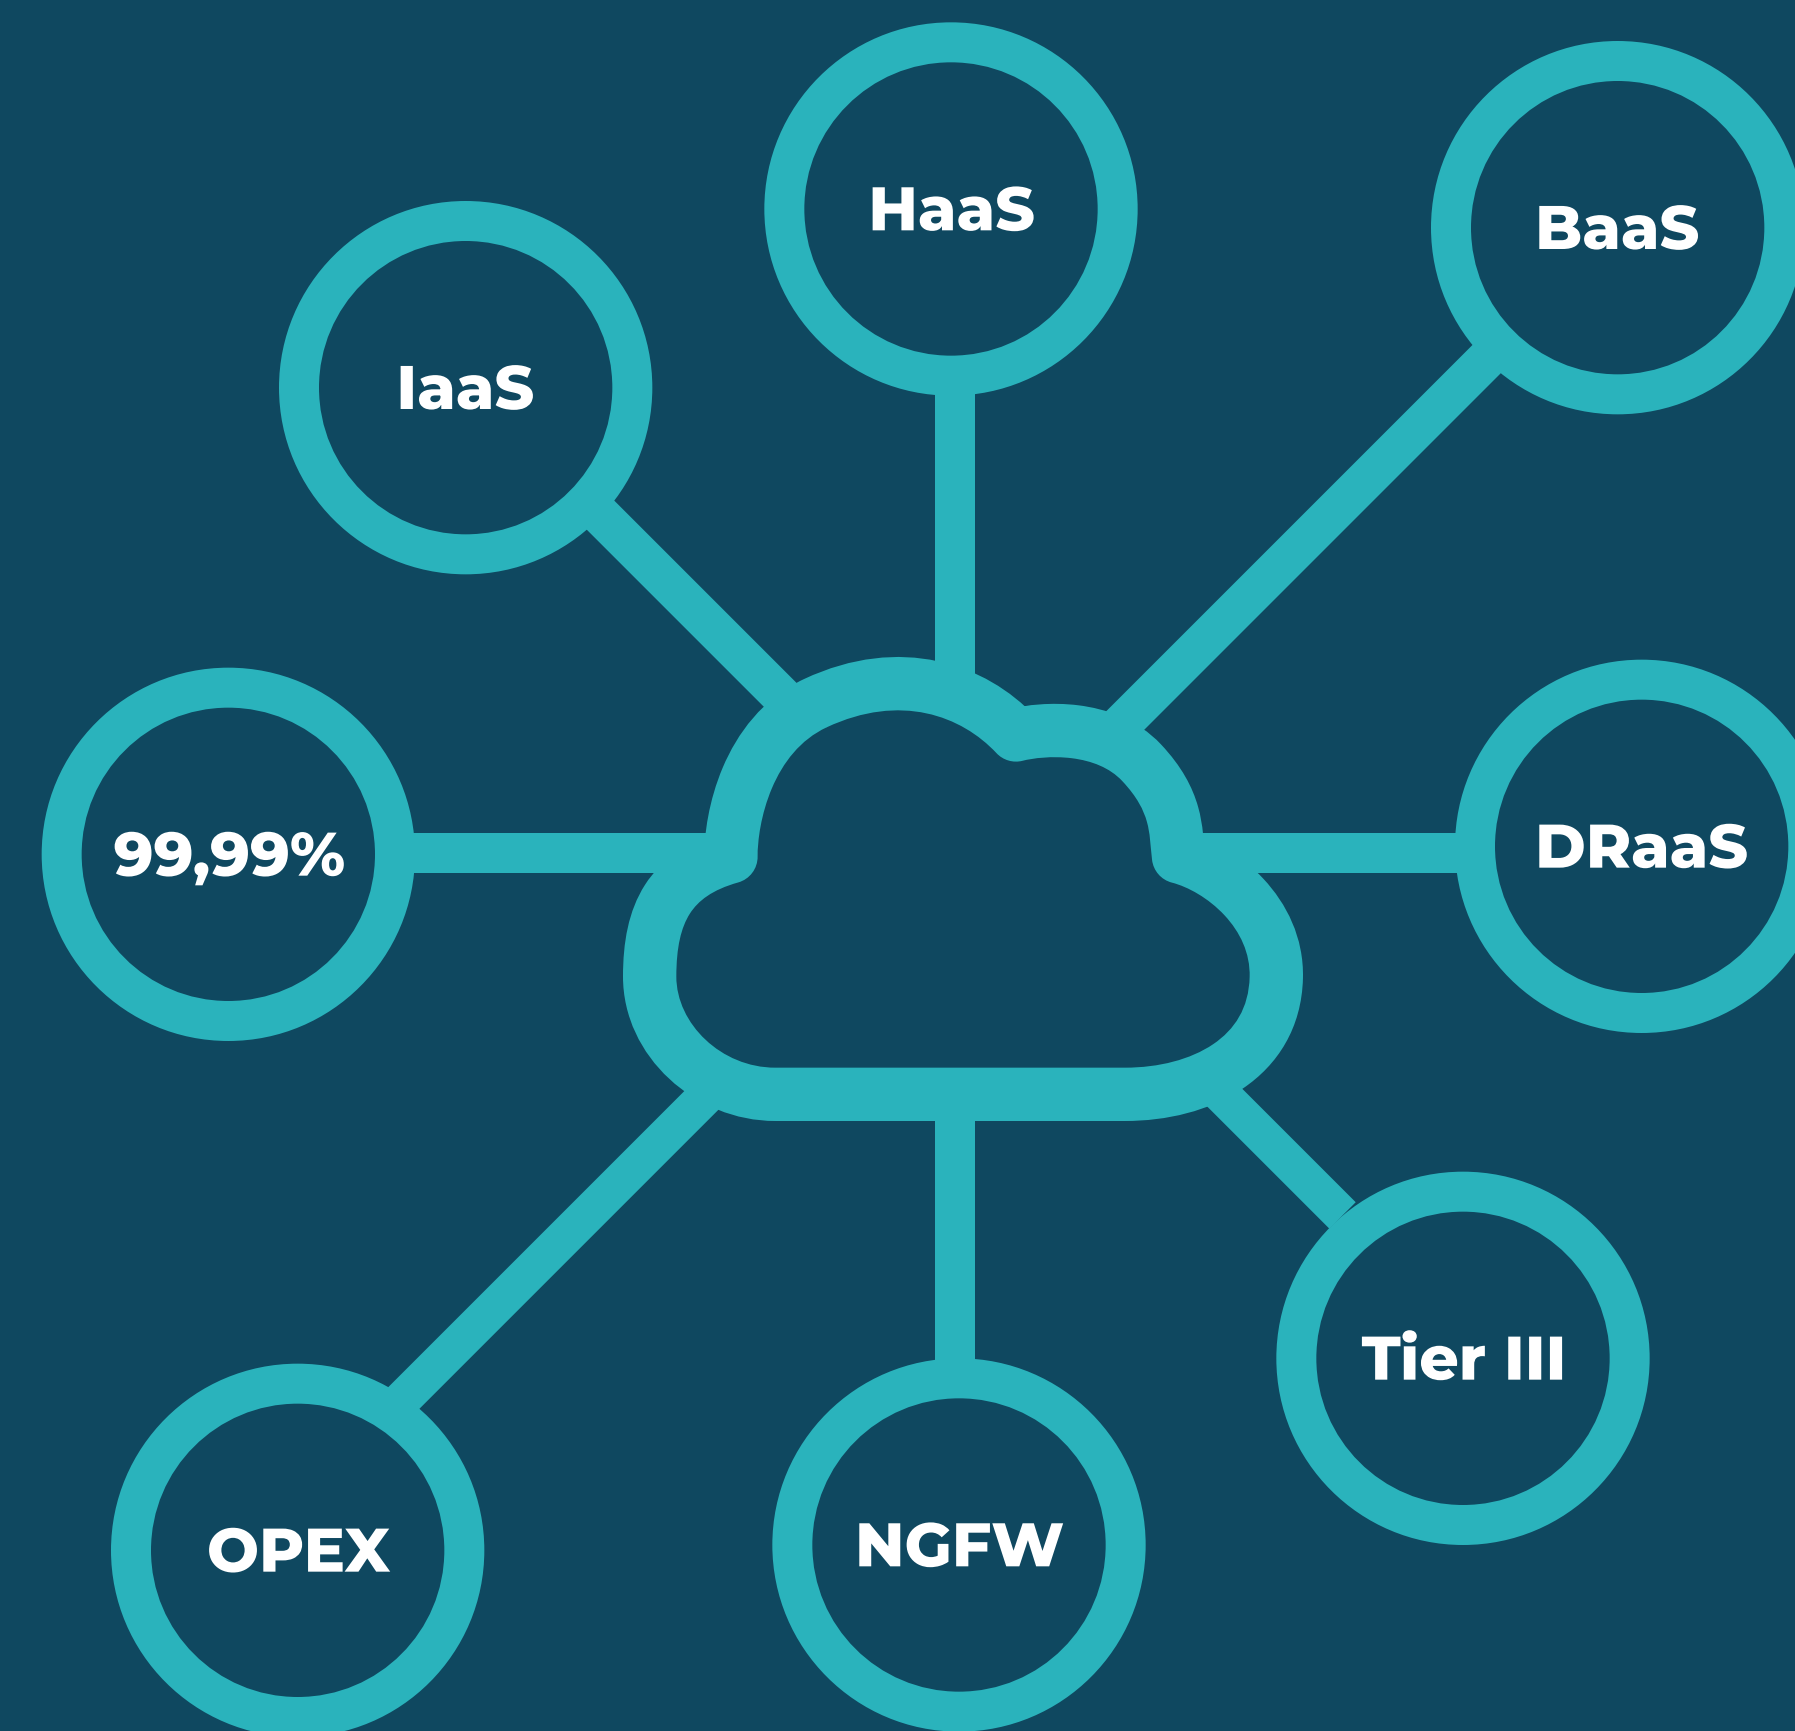

Reducing Time to Market

- ▶ Launch new servers in 1 minute
Self-sufficient day and night
- ▶ Flexible scaling of infrastructure
Ability to add or reduce resources at any time
- ▶ No more time wasted on deliveries,
installation and set-up of equipment

We'll do what others can't

- ▶ HaaS – private cloud on demand
- ▶ Connection to the Central Bank's GCI
- ▶ Organization of secure communication channels – L2, VPN
- ▶ Professional services for IT infrastructure

Guarantee of quality service

- 24/7 technical support
In several languages
- Response time
to requests – 10 minutes
- Time to resolve
critical issues – 30 minutes
- Service quality guarantee enshrined
in contracts with customers
